

Dr. A.K. Bhatnagar

Ashok Kumar Bhatnagar born on 20-01-1952 did his M.Sc. (Chemistry) and M.Sc. (Physics) has more than 25 years experience in ONGC as a Geochemist. He has worked on various instruments like X-ray fluorescence spectrometer, Gas chromatograph and Gas chromatography- Mass spectrometry (GC-MS) and Triple stage quadruple mass spectrometers (GC-MS-MS). He has developed expertise in identification of various cycloalkanes and aromatic biomarkers and their interpretation/ role in petroleum geochemistry specially in reservoir geochemistry, oil-oil and oil-source correlation studies leading to identification of different petroleum systems in a sedimentary basins. He has also experience of working in drilling fluid systems and well stimulation services in oil exploration and exploitation at various work centers of ONGC. He has published more than 20 papers in various national and international journals.
